## RCCNC HOSTS DISTRICT MANGROVE PLANTING & COASTAL CLEAN-UP

Over 100 Rotarians and Rotaractors from 21 Rotary clubs from all over Cebu City and Province of District 3860 join in planting 3,000 mangrove propagules and cleaning the coast of Brgy. South Poblacion, Naga, Cebu in the early morning of September 17, 2022 in celebration of the International Coastal Clean-up Day.

It was started with a Zumba to energize the participants and was provided little input in spreading awareness about preserving and protecting the world's oceans and waterways as a fitting way to celebrate this international coastal clean-up day.

District Governor Lilo Alino and other District officers participated the event. The activity was made possible through the partnership with the Local Government of Naga, CEMEX Philippines (maker of APO Cement) and the Rotary District 3860.
