### President's Message

**Pres. Jensen Racho**  
R.Y. 2020-2021

Good evening to all Transforming Rotarians & Guests.

Today in the history of Cebu, "On September 21, 1944, The Gamaeta family (including the president's wife and Sergio Gamaeta Jr.), leaving imminent Japanese armed, fees from Manila in a plan to cross over to guerrilla territory and seek sanctuary with Col. Russell W. Moksness's until in Northern Luzon. The family finally crosses over to safety on October 30, 1972. While on September 21, 1972, President Ferdinand E. Marcos issue Proclamation No. 1081, declaring a state of martial law in the Philippines." - Dr. Reel Mojares

It's an honor to welcome you all in our weekly meeting. Last meeting, we had our 1<sup>st</sup> virtual fellowship meeting with our July, August and September Birthday Celebrants and Wedding Anniversaries of our Club Members. Thanks to all who made the event a success.

**Water Drilling Project.** I am delighted to announce that our water drilling project in Tisa Elementary School, Cebu City is now completed and ready for turn-over to the School. I am planning to have a formal turn-over ceremony of this project on October 3, 2020 at 11am. Please join us to make this project a great one.

**Handwashing Station Project.** This is not the usual project of handwashing station for students that we had in the past because we need to design and construct the facility that will comply the basic health protocol by providing dividers between each faucet. There are 3 stations placed side by side that translate to 30 faucets that can be used by the pupils at one time. These are separated by 4 corridors for easy access to the facilities. The project is about 85% completed and that can be turned over to the school on October 3, 2020 together with the Water Drilling Project. Again, please join us to make this project a great one.

**Trash Cans Project.** This project is related in supporting to environment as the new area of focus. The Tisa Elementary School needs at least 10 units of trash cans to be placed at the prime locations of the school. These are already completed and ready for turn-over to the school on October 3, 2020. Again, I am thinking you as early as now to hand over all these projects of the Club to the School at one time.
