RCPC Letterhead

RCPC Recall Items
 District Governor, R.Y. 2020-2021
 District 3660
 Rotary International

Subject: A position letter for Rotary Clubs to take active role in the distribution of COVID-19 vaccines

Dear Gov. Reyes,

We, the members of Rotary Club of Cebu Port Centre (RCPC) would like to express our views on what should be the Philippine Rotary's involvement in the distribution of the COVID-19 vaccines once available as a means to eradicate the virus. This is based on the presentation of Dr. Lou Alan on August 31, 2020 "Covid-19 Vaccine Distribution Masterplan: Do we need it?" in our virtual regular club meeting.

After series of discussion it is our collective opinion that Philippine Rotary should take more active role and be in the forefront in the distribution of the COVID-19 vaccines for the following reasons:

1. The magnitude and complexity of the distribution of the covid-19 vaccines in the Philippines will be unprecedented. At the least, the government will have to purchase vaccines for the whole population of 109,888,794 (<https://www.csis.org/analysis/philippines-population-2020>) and the number may be doubled if booster dose is required after the first vaccine. The government will face a lot of challenges in the distribution of the vaccine to far-flung places especially that the vaccines need to be kept at near freezing temperature. Another set of challenges would be in the control and management, and in the inoculation and monitoring for various side effects if there will be any.
2. The Philippine government through its various agencies would not be able to do it alone effectively. We have seen it in the distribution of SAP 19 & 2 subsidy and other forms of aid to its people during the last 5 months. The government needs the help of the private sector, non-government organizations (NGOs) and civic organizations.
3. Rotary, an international service organization is known for its broad scope on humanitarian service with focus on mother and child (under five) health care, prevention and treatment of diseases in general and also on peace and conflict resolution, water and sanitation, basic education and economic development of remote communities, all of them most relevant for children's health, growth and development. Rotary clubs and districts work through projects characterized by international partnership and personal involvement, the local community in the lead, and by sustainability.
4. Rotary is not new to vaccine distribution and inoculation. On 29 September 1970, volunteers administered drops of oral polio vaccine to children at a health center in Cuzco, Peru, Mexico, Philippines. The event in metropolitan Manila was arranged and attended by Rotarians and delegates from the then Philippine Ministry of Health. The project's success led Rotary to make polio eradication top priority. Rotary launched PolioPlus in 1985 and was a founding member of the Global Polio Eradication Initiative in 1988. Through decades of commitment and work by

Rotary and our partners, more than 2.5 billion children have received the oral polio vaccine globally.

5. ICCPC is willing to take the initiative of discussing rolling-out plans with the various government agencies which may be involved in the distribution of the vaccines. This includes but, not limited to the Military (AFP), Department of Health (DOH), Department of Interior and Local Government (DILG), and the IATF for COVID-19. ICCPC through the collaboration of other Rotarians from various clubs have identified the different contact persons.

It is in this light that we would like to seek your support to this noble endeavor and hope this concern would resonate among the national leadership and consider it seriously.

We also would like your good office to bring this matter to the leaders of Philippine Rotary with urgency through the counsel of District Governors. Rotary's expertise in delivering services is most needed in this time of crisis. This is an opportunity for every Rotarian to build a long lasting legacy, demonstrate patriotism and core values that future generations can emulate.

Attached herewith is the text of Dr. Lor Alban's presentation on August 31, 2020 "Covid Vaccine Distribution Masterplan: Do we need it?".

Thank you for your attention and support.

Respectfully Yours,

Jensen Nacho
President, R Y 2020-2021
ICCPC
