Let us Pray

Almighty God,
You are our Creator and our Sustainer. You are our Wisdom and Strength. We ask for your guiding hand to lead us through this meeting. May we approach our task with wisdom, and may we approach our co-members with respect. May our conduct create an environment of cooperation and kindness.

Thank you for helping us to accomplish our work this evening. We ask these things, in Jesus' name, Amen!

President's Column

PRES. CARMENCITA R. ZURITA

RY 2019-2020

My fellow Centralites, Spouses and guests,
Greetings!!

POLIO IS BACK! Rotary's advocacy of the total eradication of polio is shaken by the resurfacing of this killer disease. In a country declared as polio-free for 19 years, the recent two cases constitute an epidemic. Every effort must be made to prevent the outbreak from spreading into truly epidemic proportions. Fellow Centralites, let us all work together with health professionals in the vaccination of all children, and because a new strain has been detected, as well as adults. Let us work hand in hand in restoring back our polio-free status.

On a positive note, fellow Centralites, let us give ourselves a pat in the back for the ceremonial acknowledgment of our 53 new rotaractors of our ROTARACT CLUB-University of Immaculate Conception Main Campus last September 11 in UIC auditorium. Congratulations to us! My special thanks to our extremely supportive Director for Youth Service Eric Moreno for this achievement. My special thanks to those who witnessed the event, namely, DMC Chi Uy, VP Tad, IPP Mike, Sec Maymay, PVP Angie, PP Josie, PP Joel, SAA Joseph and Rtn Micah Uy. Thank you for gracing the momentous occasion. ROTARACT Chair Maribel Villela witnessed the event and PRRD Chair Alstair Tecarro gave an inspirational speech.

Sept 14 was also a jam-packed day. In the morning, we had a One Rotary, One District Mangrove tree planting event in ABOITIZ ENERGY Park in Punta Dumalag. Again my deepest gratitude to those who participated, namely: DMC Chi Uy, PP Joel Mermida, IPP Mike Zurita, PE Jerome Camiña, spouse Jenn, Rotakid Jemmet, PP Gerry, Spouse Carmen Napalit and Rtn Eric Moreno. Thank you for your support to our mother Earth!

We had our fellowship night in the evening of September 14 celebrating IPP Mike's birthday. It was an awesome night indeed, with Andrea's band and Mr Stormowvski, the violinist. The night was made more special with our guests from our sister club, RC PANGLAO ISLAND, President Leonila Montero, IPP Romeo Balaba and Rtn Mary Ann. My special thanks for all the Centralites and Spouses who came, to DGE Riz Reyes and to our beloved PDG Art Tan and PDG Bading Angala, my heartfelt thanks to all.

We also had our MOA signing with the Community Development Services of UIC headed by Dra Umblero last September 21 in UIC Auditorium. Because of this partnership, we can now have a Rotary Community Core in their Tibungco community as well as providing them a day care center, which they badly needed. Again, my special thanks to Dir Eric Moreno for spearheading this event, and also to the millennial group for witnessing this big event, namely: SAA Joseph Solicar, Sec Maychelle Kanda and Rtn Micah Uy. Since our Community Service Chair Arlene Adlawan was around, we were able to talk extensively on the RCC and the initial day care center project together with the tibungco community representatives.

Sec Maychelle and I also attended the AREA COMM meeting last Sept 19 and we will be full packed with activities next month spearheaded by the other rotary clubs such as, the bowling tournament fellowship, concert this Oct 15, the pink October and the fun run by RC downtown. Fellow Centralites, let us join these activities to gain more friends and to be involved in the community. Let ROTARY CONNECT us to the WORLD!

"Act as if what you do makes a difference. It does." - William James

Thank you and God bless!

Rotary Information: Basic Education and Literacy

Literacy project forges virtual friendships for young students

A group of elementary school students smile and laugh, asking each other questions and sharing stories. Their conversations turn to recess, their pets, favorite sports, and what they like to eat. It may sound like a typical classroom setting, but half of the students in the room are in Durham, North Carolina, in the U.S. and the other half are on the opposite side of the globe in Ahmedabad, India.

Eight sixth grade students from YE Smith Elementary, all involved in the Rotary Club of Durham's literacy program, Rotary Reading Rangers, participate in the international video conference. After introductions are made, the students in India share a report about the history of the annual spring festival Holi.

"My underlying hope was a global understanding and global friendships between kids that would otherwise never see each other," says program founder Todd Taylor.

Taylor, a member of the Durham club, came up with the idea for the Rotary Reading Rangers after he attended a meeting about literacy in the Durham community and learned that over 40 percent of students in the Durham school system failed the reading portions of standardized tests. When asked by his club to review a proposal for a Rotary Foundation grant to buy books for YE Smith's library, he suggested that the grant also be used to tackle the literacy problems in their community. Taylor realized this connection could be forged with the help of his employer, Duke Corporate Education, which has offices in India equipped with video conferencing technology.

The reading program has 35 registered tutors and has helped 80 students in the last year. Taylor says that although the program is still relatively new and still growing, the students involved have made significant strides.

"They walk away with a clear sense of how much they share in common with their peers," Aguiar says. "It is the kind of human connection that will likely have a significant influence on their future world view." Aguiar also says he has already seen significant strides made by the four kindergarteners he currently works with.

"[They] began the year behind some of their peers; however, they are always so energized when I arrive and proudly walk over to begin their sessions with their books in hand," Aguiar says. "In a few short weeks, each could identify over half the letters of the alphabet with great accuracy. The real joy is watching them grow so quickly and read to me the books they picked out themselves."

Taylor suggests that clubs interested in creating a similar literacy project should keep the participating schools directly involved and ask for help in training tutors. Working alongside teachers and listening to their issues or concerns has been essential to the program's success.

"Students are developing a joy of reading, engaging with positive role models and are daring to dream. Every community has neighborhoods that struggle with multigenerational illiteracy, and students are unprepared for school," Aguiar says. "Rotarians can get involved early and, with a small investment of time, improve literacy and help lift up the community."

Republic of the Philippines
Department of Health
Kagawaran ng Kalusugan
ISO 9001:2015 CERTIFIED

The Department of Health (DOH) confirms that Polio is re-emerging in the Philippines, nineteen years after the country was declared polio-free by the World Health Organization (WHO) in 2000.

Polio is an infectious disease which spreads rapidly. It can cause paralysis and, on rare occasions, can be fatal. There is no cure for polio—it can only be prevented with multiple doses of polio vaccines that have long been proven safe and effective.

One polio case was confirmed in a 3-year-old girl from Lanao del Sur. Aside from the confirmed case, a suspected case of acute flaccid paralysis is awaiting confirmation. In addition, the poliovirus has been detected in samples taken from sewage in Manila and waterways in Davao as part of the regular environmental surveillance.

Polio case in a 3 y/o child confirmed.

Poliovirus also detected in the sewage and waterways of Manila and Davao.
