

PLANT FOR LIFE; PLANT FOR EARTH'S HEALTH PROJECT LAUNCHED

Tree planting is recognized as one of the most engaging, environmentally-friendly activities that people can take part in to better the planet. Sustainable benefits of planting trees include more oxygen in our air, more natural carbon sinks and reduced greenhouse gases, natural habitats for endangered species, healthier soil, and natural humidity control. Planting trees in watershed areas is a necessary step toward a better, more sustainable future. It can improve water and ecosystem resilience as trees shelter biodiversity and provide ecosystem services like cleaning the air, capturing and filtering rainwater, and sequestering carbon.

The Rotary Club of Central Tandag, led by SP Valerio T. Montesclaros, planted trees earlier today at the TandagCity WD-LGU Tandag-DENR managed Ihawan Spring Community Watershed in Brgy. Awastan, Tandag City.

ROTARIANS COOK 'N DINE FELLOWSHIP

last March 2, 2023 RC Central Tandag had its fellowship meeting dubbed as Cook 'N Dine which served as an avenue for the members to discuss casually matters related on how to strengthen the bond between all the members of the Club. It was led by Pres Lery at the Mi Amore Restobar and Family KTV.

Members were all seated at the long table set-up to cook and dine Korean Samgyeopsal where members get to cook and eat while doing Rotary business.

REGULAR MEETING AND FELLOWSHIP AT UPTOWN CAFE

Seated at a long table, RC Central Tandag conducts its regular weekly meeting on February 23, 2023, at Uptown Cafe and Resto bar to discuss matters for the good of the Club.
