CHRISELDA C. MACION TREASURER

In a concerted effort to promote a safer and drug-free community, we are delighted to share our latest endeavor: a collaborative project with the Philippine Drug Enforcement Agency (PDEA) aimed at raising Drug Awareness at Sea Trade Canning.

Our mission is clear: to empower the members of our community with vital knowledge about the perils of drug abuse and its far-reaching consequences on individuals, families, and society at large. Recognizing that education and awareness are indispensable tools in protecting our youth and safeguarding the future, we have embarked on this initiative with great enthusiasm. Drug abuse remains a critical issue that affects countless lives, with devastating ripple effects felt across communities.

By partnering with PDEA, we are not only amplifying our commitment to social responsibility but also taking concrete steps to address this pressing concern head-on. Through a series of educational programs, workshops, and outreach initiatives, we will equip individuals with the knowledge and resources needed to make informed decisions about substance use. Our goal is to foster a sense of responsibility, resilience, and unity within our community, ultimately paving the way for a safer, healthier, and drug-free environment.

In a remarkable collaboration involving the Rotary Club of Greater General Santos, United Private Midwives, Philippine Red Cross GenSan Chapter, and USAID, we proudly announce our recent event: "Empowering Families: Promoting Health, Planning, and Parenthood at Work."

This inspiring initiative unfolded on August 5, 2023, within the welcoming confines of Citra Mina Compound, Brgy. Tambler, GSC. With an unwavering commitment to enhancing the lives of our valued workers, we embarked on this journey, touching the lives of 150 dedicated individuals through our 'Family Well-being Project.'

Our shared vision is to cultivate a workplace that not only nurtures professional growth but also champions the well-being of the entire family unit. Family planning is no longer a mere concept but a tangible, accessible reality within our community. Our partnership extends beyond this remarkable event; it represents an enduring promise to provide continuous support and resources to our community.

Together, we aspire to create an environment where each member can flourish, and where the ideals of health, planning, and parenthood are not just words but lived

experiences.

On this meaningful day, August 12, 2023, the Rotary Club of Greater General Santos, in a heartwarming collaboration with St. Gemma's Kitchen, took a significant step in bringing positive change to our community. We organized a Feeding Program that touched the lives of 43 underprivileged children residing in Purok 19, Brgy. Lagao, and Brgy. Baluan. This inspiring and ongoing initiative is a testament to the unwavering commitment of our club members and is proudly spearheaded by Charter President Paz Benedicta Salazar and Past President Edna Salazar. Their leadership and dedication have been instrumental in making this program a reality. With each meal served, we do more than just nourish hungry stomachs; we nurture dreams and inspire change in the hearts of these young souls. We firmly believe that every child deserves a fair chance at a brighter future, and through initiatives like these, we are working towards that goal, one child at a time. As we continue this journey of service, let us remember that our actions have the power to transform lives and uplift communities. Together, we can create a world where no child goes to bed hungry and where hope is a constant presence in every heart. Thank you to everyone who contributed to the success of this Feeding Program. Your generosity and compassion shine as a beacon of hope for our community, reminding us that together, we can make a difference

SERVICEPROJECTS

On August 15, 2022, the Rotary Club of Greater General Santos embarked on a noble mission to enhance the learning environment at Batomelong Elementary School. Under the banner of "BRIGADA ESKWELA 2023," the club demonstrated its unwavering commitment to community betterment, leaving an indelible mark on the school's infrastructure and aesthetics. The Rotary Club's generous donation of 4 sacks of cement, gallons of paint, and essential painting materials was a testament to their dedication to addressing the school's physical needs. These contributions played a pivotal role in supporting crucial repairs and construction work, ensuring the safety and stability of the school's structures. Additionally, the gallons of paint and painting materials breathed new life into the school, creating a vibrant and inviting atmosphere for students, teachers, and staff alike. This initiative epitomizes the Rotary Club's core values of service, collaboration, and community engagement. By partnering with Batomelong Elementary School, the club demonstrated genuine concern for the well-being and educational growth of the students. Their efforts not only directly improved the school's infrastructure but also indirectly contributed to an enriched learning experience for the students, who now have a more appealing and conducive space for their education. The Rotary Club of Greater General Santos can take immense pride in this impactful endeavor, knowing that their contribution will continue to benefit the school and its community for years to come. This project stands as a testament to the club's enduring dedication to making a profound and lasting difference in the lives of those they serve

Last August 22, 2023, our Rotary Club embarked on a heartwarming mission to bring the gift of health and hope to the heart of Ladol in the Municipality of Alabel. In alignment with the Rotary theme "Create Hope in the World," we were thrilled to offer essential kits to expecting parents, a gesture that symbolizes our commitment to nurturing a brighter future for both mothers and babies. These essential kits serve as a beacon of hope, providing expecting parents with the necessary tools and resources for a healthy start. Our aim is not only to provide practical support but also to infuse the community with positivity and a sense of togetherness. Rotary's spirit of service and compassion shines brightly in moments like these, where we come together to make a meaningful impact on the lives of those in need. By spreading hope and health within our community, we reaffirm our dedication to creating a better world for all. Thank you to all our members and partners who made this initiative possible. Your contributions and unwavering commitment to service continue to inspire and uplift those we serve. Together, we are making a difference, one act of kindness at a time.

August 28, 2023, is a significant moment as we gather to show our strong commitment to the well-being of the children in our community. I'm privileged to share that we're generously donating 5 nebulizers to the Pediatric Ward of Jorge P. Royeca Hospital. Our dedication to service goes beyond ourselves and deeply into our community's heart. Our children are the future, and it's our responsibility to ensure their care, growth, and access to a healthy life. Through this donation, our aim is to bring immediate relief to young ones facing medical challenges. Nebulizers symbolize more than just machines; they embody hope, comfort, and healing.

They offer a lifeline to those fighting respiratory issues, to the brave young souls battling ailments. Our gift to the Pediatric Ward showcases our shared compassion and determination to ease the suffering of these courageous patients. This act reminds us that together, we hold the power to create a significant impact, as every act of kindness ripples out to change lives. Let's draw strength from these resilient children and recommit ourselves to supporting them and their families through their journey to recovery. May this gift stand as proof of our unity, compassion, and unwavering support for the children of our community. Together, we're shaping a world where every child's health and well-being are safeguarded, allowing their dreams to soar free from illness.
