

HOPE CREATING Rotary New Year

Anchored with the Rotary International Presidential Theme CREATE HOPE in the WORLD, Rotary Club of San Francisco spearheaded by the Hope Creating President Triponio Numeron Jr. celebrates the Rotary New Year with the children of Brgy Caimpugan, San Francisco, Agusan del Sur.

**CREATE HOPE
in the WORLD**

LIMITLESS: RCSF celebrates Rotary New Year with 3 Service Projects

Rotary Club of San Francisco recently celebrated the start of the new year with a vibrant and inspiring event, showcasing their Presidential Theme, "CREATE HOPE in the WORLD." The club's President, along with its dedicated members, unveiled three impactful service projects aimed at bringing hope and positive change to the lives of children in need.

Bright Beginnings: Registering Hope for Unregistered Children

In an effort to ensure every child has access to basic rights, the Rotary Club of San Francisco launched the "Bright Beginnings" project. Recognizing the plight of unregistered children, the club aims to provide them with a brighter future by helping them obtain proper identification and access to essential services. Through partnerships with Municipal Local Civil Registry, the club will navigate the bureaucratic hurdles and facilitate the registration process, offering hope and a pathway to a better life for these children.

Nourishing Futures: Fighting Hunger and Malnutrition Among Children

With the goal of eradicating hunger and malnutrition among children, the Rotary Club of San Francisco introduced the "Nourishing Futures" project. This initiative seeks to establish sustainable solutions to address food insecurity and nutritional deficiencies in the community. By partnering with the **Perth Filipino Dance Troupe** based in Australia the club will implement programs that provide healthy meals, nutritional education, and access to vital resources, ensuring that no child goes to bed hungry or lacks essential nourishment.

Smiles of Care: Hygiene Kits for Happy Kids

Recognizing the importance of personal hygiene for children's overall well-being, the Rotary Club of San Francisco initiated the "Smiles of Care" project. The club aims to distribute hygiene kits to children in underserved communities, promoting good hygiene practices and preventing the spread of diseases. This becomes possible with the partnership of City Pharma. These kits, consisting of essential items such as Vitamins, toothbrushes, toothpaste, soap, and sanitary products, will empower children to maintain their health, dignity, and self-confidence, creating smiles that reflect their happiness and well-being.
