Invocation

Lord, we know that You love this world which You created. You even came down to earth to redeem it. And You gave us the great privilege to participate in Your creation and in Your work of redemption.

Teach us, O Lord, how to run this world according to Your plans. We ask for Your blessing and Your gift of healing.

Give us the guidance and the courage to seek justice, and to show love to all men. Give us the longing to practice goodness, generosity and responsibility. Make us realize that You are the Lord of all that is good and beautiful.

To be Your partner is the greatest honor and privilege.

Amen.

Improving literacy through teacher training

Realizing that getting children into schools isn't enough to solve illiteracy, Rotary shifts to mentoring and coaching teachers

By *Arnold R. Grahl*

On Carolyn Johnson's second visit to the central highlands of Guatemala, she met a first-grade teacher who made a shocking confession. Before taking part in the Guatemala Literacy Project, the teacher was convinced that her students could not learn to read.

"She said 'We were willing to go through the program because it was a day out of class and you gave us books and you provided us with a nice lunch, but we knew that you were crazy,' " says Johnson, a Rotarian who helped design the curriculum for the project and now serves as a technical adviser for the [Guatemala Literacy Project](#).

That teacher and more than a hundred of her colleagues each received several in-classroom coaching sessions over eight months. They learned how to replace rote memorization drills and repetition of words on a blackboard with exercises that engage their students in critical thinking.

"She went on to tell me excitedly how 45 of her 50 students were moving on to second grade because they had learned to read," Johnson says. "The program has made believers out of 90 percent of the teachers we have worked with. They are excited about being teachers again, and they go into their classrooms believing they can make a difference."

After decades of investing in literacy projects, experts have realized that simply getting children into the classroom — either by removing attendance barriers or providing supplies — is not enough. Before students can succeed, the quality of the teaching in that classroom needs to improve.
