## PRESIDENT'S MESSAGE

Good day Fellow Rotarians,

Welcome to our 9<sup>th</sup> Regular Meeting!

Incidentally we were not able to conduct our scheduled meeting last week as it was the Leyte Landing anniversary. We give honor & respect to the unsung heroes of World War II on that glorious day of Oct. 20, 1944.

Last Monday (October 24), the whole Rotary International organization across the globe observed the celebration of World Polio Day. Our daughter club, Rotary Club of Kandaya hosted the "Takbo to End Polio" as a prelude activity. We do a healthy run around the comfortable oval ground of the Leyte sports complex. Yesterday, all clubs under Area 3B1 & 3B2 did the actual polio drop vaccination dubbed as "Sabayang Patak Kontra Polio" in Sagkahan District Health Center. Around 30 babies were vaccinated during the said activity. Our club was the host wherein we distributed health kits for all the beneficiaries of the vaccination.

This year's R.I.'s global theme campaign is **One Day. One Focus: Ending Polio**

By your donation to [www.endpolio.org](http://www.endpolio.org), here are the 5 Reasons Why We Must Eradicate Polio

### 1.) YOUR GIFT WILL IMPROVE LIVES.

Today, 20 million people who would otherwise be paralyzed by polio are walking, and 1.5 million people who would otherwise have died are alive.

### 2) YOUR GIFT WILL INVEST IN THE FUTURE.

If all eradication efforts stopped today, within 10 years, polio could paralyze as many as 200,000 children each year. A polio-free world will be a healthier world for children everywhere.

### 3) YOUR GIFT WILL IMPROVE CHILD HEALTH.

Polio surveillance networks and vaccination campaigns also monitor children for other health problems, like vitamin deficiency and measles, so we can address them sooner.

### 4) YOUR GIFT WILL LOWER HEALTH CARE COSTS.

The global effort to eradicate polio has already saved more than \$27 billion in health care costs since 1988, and expects to save \$14 billion more by 2050.

### 5) YOUR GIFT WILL MAKE HISTORY.

Polio eradication will be one of history's greatest public health achievements, with polio following smallpox to become only the second human disease eradicated from the world.

As Rotarians, let us continue to work with our Department of Health in eradicating polio and give our new generation a polio free place to live.

Yours in Rotary Service,

Jocal

## Secretary's Message

Greetings Fellow Rotarians!

Being a Rotarian, I feel greatly honored to be part of this organization which has been working to eradicate polio for more than 30 years. With the great efforts of Rotary, it has proven that vaccination works and cases of polio are almost non-existent in many parts of the world already.

### Awareness without action is worthless. – Phil McGraw

With this year's theme "World Polio Day 2022 and Beyond: **A Healthier Future for mothers and children**", let us all continue to raise people's awareness on the importance of polio vaccination and encourage every parents to protect every child from this devastating disease to create a healthy and safe environment.

I and President Jocal would like to thank in a very special way to our club members that despite unfavorable weather we were still able to represent our club and share our valuable time during the TAKBO End Polio campaign at the Tacloban Grand Stand and Sabayang Patak Kontra Polio at Sagkahan Health Center held last October 24 & 26, 2022.

Let us celebrate the milestones of the Rotary community and the unwavering commitments of everyone to eradicate polio. Together, we will End Polio Now.

Yours in Rotary Service,

Sec. Millan

## ROTARY INFORMATION

### A modified vaccine offers hope that eradication is closer than ever

In mid-2017, two groups of 15 strangers lived together for 28 days each in a ring of shipping containers assembled in the parking lot of Antwerp University Hospital in Belgium. They had access to books and movies, a small courtyard for barbecues, a common kitchen and dining room, and a fitness room — all of it behind secure interlocking doors and under the watch of personnel in protective gowns.

What sounds like a reality TV or sci-fi scenario was, in fact, a remarkable clinical trial of the latest weapon in the battle to eradicate polio — a reengineered vaccine called the novel oral polio vaccine type 2, or nOPV2. The study aimed to evaluate whether the altered formula, the first major update to polio vaccines in about six decades, could help end outbreaks of circulating vaccine-derived poliovirus, also known as variant poliovirus. Such cases arise in rare instances when the live but weakened virus contained in oral polio vaccines circulates in areas of low vaccine coverage and mutates back into a dangerous form that can infect people who have not been fully vaccinated.

These variant poliovirus outbreaks have emerged over the past two decades as a significant stumbling block in the effort by Rotary and its partners in the Global Polio Eradication Initiative (GPEI) to wipe out the disease. The outbreaks are different from those driven by wild poliovirus, which circulated naturally in the environment for millennia and remains endemic in just two countries, Afghanistan and Pakistan. But the outcome is the same — the virus in either kind of outbreak can, in rare instances, cause paralysis.

In 2011, staff at the Bill & Melinda Gates Foundation, one of the GPEI partners, wondered if the live virus in the traditional oral vaccine could be tweaked to limit its ability to mutate. “The first challenge was purely scientific,” says Ananda Bandyopadhyay, a deputy director of the polio team at the Gates Foundation, which funded and led the effort. “How do you make the vaccine more genetically stable without compromising its immunogenicity [ability to provoke an immune response]? That was really, really challenging.”

Even then, researchers would need to figure out how to test the idea. Any attempt would require strict isolation of study participants. At a 2015 meeting in Brussels, Bandyopadhyay pitched the audacious idea to Pierre Van Damme, director of the Centre for Evaluation of Vaccination at the University of Antwerp. “We had to be very creative,” says Ilse De Coster, who would lead the clinical trial team with Van Damme in Belgium, “because at that time we didn’t have any facility that was developed for containment.”

Theme: Serve To Change Lives

**75** Years of Service Above Self

## OBJECT OF ROTARY

The Object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

### FIRST:

The development of acquaintance as an opportunity for service;

### SECOND:

High ethical standards in business and professions; the recognition of the worthiness of all useful occupations; and the dignifying of each Rotarian's occupation as an opportunity to serve society;

### THIRD:

The application of the ideal of service in each Rotarian's personal, business, and community life;

### FOURTH:

The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional persons united in the ideal of service.

## THE FOUR-WAY TEST Of the things we think, say, or do

The Four-Way Test is a nonpartisan and nonsectarian ethical guide for Rotarians to use for their personal and professional relationships.

1. Is it the **TRUTH**?
2. Is it **FAIR** to all concerned?
3. Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?
4. Will it be **BENEFICIAL** to all concerned?
