President's Message
Delia F. Lasco
Club President 2021-2022

August 2021

I am most honored and humbled to be elected President of the Rotary Club of Tubigon. Thank you my fellow Rotarians for the trust and confidence you have given me and I will try to do my best to meet the challenges for the RY 2021-2022.

I am aware that accepting this task at this time of the pandemic is not easy. Quoting Charles Dickens "It was

the worst of times, it was the best of times...", this Rotary year is challenged to fight the threat of Covid-19 and at the same time look for ways and means within the Rotary's areas of concern so we can serve to change lives. This COVID time presents not only problems but also opportunities to make a difference in the lives of our less fortunate brothers.

Thank you Immediate Past President Haydee C. Cabasan and in tandem with our very reliable Secretary Maribel V. Sumayang for your invaluable support to the club as well as the smooth management of the club. With the use of technology and both of you being millenials, we will still be relying on your expertise and dedication.

My fellow Rotarians, time does not stand still. We have a year to implement the Rotary's areas of concern. But first, we need to be convinced ourselves that what we will be doing is a laudable cause. Change should start with ourselves and share to others. There's no other better time to start it but now. Let us grab the opportunity to do service above self. CARPE DIEM!

"Rotary Hymn"

I want to be a Rotarian for the world,
Make the Rotary flag be a flag of
peace unfurled;
I will serve my community,
Help to seek international unity.
Through Rotary, I will dedicate my all,
World understanding shall be my
cherished goal.

Refrain: With the Four Way Test
I will pursue my quest
And if I, in a way help obtain
Peace in the world
Then I won't have lived in vain.

I'll observe service above self,
Lend a hand to all who need my help;
I'll get my spouse to involve in Rotary
And in Rotary ways I will train my
family.

Refrain: With the Four Way Test
I will pursue my quest
And if I, in a way help obtain
Peace in the world
Then I won't have lived in vain.

Build a bridge for tomorrow's youth,
Strengthened by nothing but the truth;
Let's join our hands, there's no reason
to divide..

We shall all understand, while the good
Lord is our guide

Peace be achieved, so we won't have lived in vain

Laugh Line

A: Syempre ang ambulansya, kasi, ang jeepney ay 10-10 lng ang bawat side, samantalang sa ambulansya, madalas na 50-50 ang sakay.

Joke no. 3

ROTARY INFORMATION

So, You're Organizing an Online Meeting...

You know what it takes to keep a meeting going when you're all gathered in a room. Here are seven steps for transitioning your in-person meeting to a virtual setting.

1 Stick to meeting basics

Use an agenda, set ground rules, and clearly outline next steps at the end of the meeting. If background information is required, share it beforehand.

1

2 Rethink your meeting

Adjust your content to maximize the online format. For example, fellowship

2

3 Choose the best tech

Before selecting a platform, consider the equipment members may or may not have.

3

4 Rehearse

Practice with presenters so they know how to request control and share their screens. Log on early to test audio and make sure all presenters are on.

4

5 Make it accessible

Not everyone can join via video. Provide an audio option and consider recording the meeting to share later. Inform participants the meeting will be recorded, so they can switch off their cameras if they prefer.

FACTS OF THE MATTER

EDITORIAL – Half-baked policy shift (The Phil. Star)

Last Tuesday, news reports showed entrepreneurs and employees in the National Capital Region happily preparing for the next day's shift to general community quarantine, as announced by Malacañang. Most were in the restaurant and personal grooming sectors, whose operations have been limited or suspended since the NCR was placed under enhanced community quarantine followed by modified ECQ.

Just moments after one such interview was aired in the early evening news, however, there was a news flash: the next day's announced easing from MECQ to general community quarantine would be postponed for at least a week. Suspended with the GCQ was the shift in strategy from widespread to granular lockdowns, with a storm-type alert level system for determining which areas would be placed under localized hard lockdown.

One explanation given for the sudden change of mind of the Inter-Agency Task Force for the Management of Emerging Infectious Diseases was that the implementing guidelines for the shift were not yet ready. An official said the IATF possibly also heeded concerns raised by health frontliners, who have lamented the decision to ease quarantine restrictions as COVID cases surge to record highs.

The surge has been attributed to the confirmed community transmission of the highly infectious Delta variant nationwide. The Alpha and Beta variants, which were responsible for last summer's deadly COVID surge, are also still around.

Yesterday, there were social media posts and media interviews of people dismayed by the flip-flopping, which compounded the confusion over what granular lockdowns and the storm-type alert levels would entail exactly. One restaurant owner lamented that they had already bought meat and other perishables in bulk in anticipation of the next day's reopening.

While people understand the difficulty of dealing with a deadly virus that keeps mutating, it must be possible to minimize the confusion and issue clear messages. A significant shift that affects business operations and could have a major impact on public healthcare needs full staff work, with potential problems addressed and different sectors consulted before being approved and announced to the public.

Edgardo Lacson, acting president of the Philippine Chamber of Commerce and Industry, summed up the sentiment of its members: "Authorities must be prudent in prematurely announcing half-studied policies or policy shifts as they have tremendous impact on business operations and people's daily lives." The half-baked policy shift also reinforces perceptions about the incoherence of the government's pandemic response.
