VOLUME °28 / ISSUE 08

 ${\color{red}L}$ Lord grant us a quiet moment today to think of all our blessings,

for too often we forget how you make our good days always outnumber the bad ones.

Keep us in peace and forbid that we murmur and complain.

Grant us humble and submissive hearts and the ability to rejoice in hope even when circumstances bring us to tears.

Help us to select and engage ourselves in activities that meet the Four Way Test and that our conduct might be exemplary when dealing with those around us.

Eighth Regular Meeting

Secretary's Time PP Baby Vilela

President's Time Pres Tess Yñiguez and Adjournment

AUGUST is Membership Development & Extension Month

EDITOR'S NOTE

There has been a steady decline in our meeting attendance.

Could it be that our meetings have become a routine and our looking forward to Thursdays is now a thing of the past ??

The club is only as good as its members and it should start at club meetings spearheaded by the club administration committee.

I have compiled some ideas from www.rotary.org for interesting club meetings - a reminder, lest we already have forgotten

The role of the club administration committee is to perform the logistical tasks that make your club meetings successful.

The club meeting shapes members' Rotary experience.

Meetings should be fun and interactive.

Clubs need active, engaged members in order to provide service to their communities and attract new members

MEETING AGENDAS

The committee is responsible for developing the agendas, or programs, for all club meetings.

WEEKLY MEETINGS

Delegate someone on your committee to develop the agenda for your club's weekly meetings. (in our club - Host Groups)

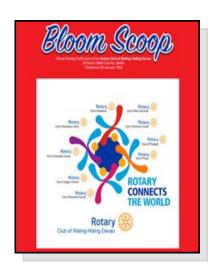

Be creative and try different things to appeal to your members' different interests.. **here are some ideas**:

- Include regular updates on the status of club projects, activities members can get involved in, and community concerns that the club could address
- Dedicate some meetings to socializing and networking
- Observe special dates, weeks, and months
- Have a backup plan, such as having members speak about their Rotary experience or showing a Rotary video, in case a speaker or another part of the program falls through,

(www.rotary.org//clubadministration)

TERESITA P. YÑIGUEZ Club President

teresitayniquez@yahoo.com

It is truly remarkable how our club takes to heart this year's Rotary theme "**Rotary Connects the World**".

In our 7th Regular Meeting last August 22, we inked not one but two Sisterhood Agreements (the 3rd this RY) with RC Metro Laoag D3760 Ilocos Norte and RC Historic Filipino Town LA D 5280 California USA.

As we connect with other clubs foreign and domestic, I hope that we will be guided by Rotary's Service commitment to our communities around the world, in as much as Sisterhood Agreements not only enable us Rotarians to connect through Fellowship but also as local and international partners in community projects.

Now our club is given the opportunity to do both and we are looking forward to future activities with our new sister clubs.

My thanks and appreciation to former RCWWD charter member Jane Tesoro who made the connections possible, with of course the help of PP Jannette Valderosa.

The meeting was further made livelier with the presence of our District 3860's first lady governor PDG Eveyn "Len" Magno. In her short message, she asked us to continue to be inspired as Rotarians even if we are out of touched with Rotary like she always is. She is now USA based.

Thank you Pres Jun Gonong of Historic Filipino Town LA & Pres Marilyn Bismonte of RC Laoag Metro for taking the time to visit us.

Last August 24, Honorary Member PP Nonoy Aquino invited us to his birthday celebration.

Thank you PP Nonoy for everything you have done to our club.

We wish you good health and may you continue to be a blessing to our beneficiaries.

Rotary CONNECTING COMMUNITIES

DUHA DAYCARE CENTER

It all started in 2016. A severe flooding devastated Davao United Homeowners Association (**DUHA**) and nearby area,. DUHA is geographically located right at the boundary of Davao River, the community is considered one of the depressed areas in Davao City.

The Rotary Club of Waling waling (RCWWD) came to their rescue and distributed relief goods like rice, canned goods and hygiene kits, soaps, towels, blankets and clothes to mostly of its 300 households.

The residents were also included in RCWWD's Christmas gift giving, by distributing pails containing holiday food packages and conducted community briefings on a possible tie up.

RCWWD established a Rotary Community Corp at DUHA in 2016. Induction of the initial members and officers was witnessed by visiting Rotarians of RC Narashino, Chiba, Japan, a sister club of RCWWD.

Several community service projects were conducted, including "Anti-Rabies Forum, Vaccination of Dogs and Cats and likewise performed requested castration of some dogs, turned over gathered goods from members and friends for a "rummage" sale to raise funds for RCC projects. The Club had also distributed books, Blood Pressure Monitor, as well as conducted forums on health and nutrition

It is in the area of health and safety where RCWWD received request from the community for the construction of toilets for their DUHA Daycare Center, with 50 preschoolers attending classes each year.

RCWWD applied for a District Grant for two (2) toilets, the project named "**Toilets for Life,**" and was granted US\$2,000 or an equivalent of One Hundred Two Thousand Pesos.

Aside from the absence of toilets, the one storey building

began showing safety concerns, the wooden trusses made of coconut lumber was beginning to rot, the rusted roofing sheets are leaking on rainy days. Ugly cyclone wires were installed to cover the length of

"should be windows" for ventilation and most importantly, the absence of exit door.

The entire building is a "safety nightmare", waiting to happen.

On a visit by RCWWD during one of the activities in the community, the possibility to replace the entire building and putting up the two (2) toilets within a "NEW" building, was discussed.

PP Remie Calaguas rmcalaguas@yahoo,com

The planning focused on the building plans and its costs and sources of funds came later.

Donations were pooled.

Cash donations came in from RC Narashino, Chiba Japan, the heirs of Juana Tan (mother of RCWWD member Myriam Tan) and RCWWD funds.

The donated materials like the entire roofing sheets came from Technotrade Resources, Inc (family of member Myriam), and the barangay chairman of the community donated goods and services for the steel trusses and concrete posts and walls.

Construction of the building began at the start of summer of 2019, removing the old building to give way to a NEW one.

Blessing was on August 19, 2019 with the members of RCWWD in attendance with DGE Riezl Reyes no less giving an Inspirational Speech.

Beaming faces of the preschoolers was a sight to behold.

TO GOD BE THE GLORY

the his and hers toilets

Ni hao, Rotarians!

Many of you have noticed that I have a new gesture for this Rotary year.

It's a gesture of congratulations, a gesture of shared purpose and success - the high five, or gimme five.

To little children in Mongolia or Guatemala, this simple symbol carries the same meaning.

Connection. Endeavor. Shared victory.

Well, we have victories to celebrate too.

Our Foundation has seen over a hundred years of victories.

We've seen communities transformed by clean water sources and sanitary bathrooms.

We've seen what peace can do for families across the world. And because of what Rotary has done, polio is 99.9 percent gone.

But a high five is more than just a symbol of what we've done. Even more, it's a symbol of what we're going to do. Bringing our talents together, and making a difference that lasts.

That's our history. It's also our plan for the future. We are people of action. And our actions bring lasting change. t's easy to do things that make change. That make a difference. But what about lasting change? That's harder. And that's why we need a strategy.

As a middle school student, I played basketball. I played well, and ended up as captain of my team. But it wasn't because I was tall. I was quick on my feet, but I was also good at setting up a win. I knew that for each move to be productive, it must have a plan behind it.

It is the same in Rotary. So this year is the year when we launch our new strategic plan, crafted with input from clubs all over the world. It brings more people together, increases our impact, and creates lasting change around the world. And to support this vision, this year we have set an ambitious comprehensive fundraising goal this year of \$400 million. This is comprised of \$140 million for the Annual Fund, \$50 million for PolioPlus from donors, \$100 million for PolioPlus from the Bill & Gates Foundation (through a 2-1 match, if Rotarians and friends of our Foundation can raise \$50 million), \$75 million for our endowment and \$35 million in contributions to other areas like approved global grants.

Our goal for the endowment is \$75 million, in outright gifts and commitments. That's part of a larger goal—\$2.025 billion by 2025. It's an ambitious goal, but it's something we can do. It will be our gift to the Rotarians of tomorrow. We have a few more priorities we want to work on this year. For one, we want to make spending our DDF a priority, to fund district grants, global grants, PolioPlus and the Rotary Peace Centers. Look at your district's reports. How much of your DDF did you utilize last year? Are you on track to spend it all this year? As a reminder, as of 1 July 2019, District Designated Fund (DDF) contributions is matched 1:1 by the World Fund. After the 2:1 Gates Foundation match, contributions to DDF will yield a 6:1 match.

If you haven't, start talking with Rotarians in your district about allocating those funds. In the spirit of Gimme 5, make sure you spend at least 5 percent more than last year.

We also want to encourage Rotarians everywhere to tell Rotary's story, let the world know what Rotarians, empowered by our Foundation, our doing around the world. A great example is our role in polio eradication.

Gimme 5 here too: five accounts of People in Action shared with people you know who need to hear more about Rotary.

Maybe all five of them will be inspired by what you share, and come and be Rotarians too.

Tell Rotary's story. Be Rotary ambassadors wherever you go, and let the world know what we are doing. Then our Foundation will go from strength to strength, and we will set up more wins for those we serve.

Sincerely,

Gary C.K. Huang

Rotary and the Classification Principle by Darrell Portz / RC Yellowknife Canada

Virtually all membership in Rotary is based upon a "classification".

Basically, a classification describes the distinct and recognized business or professional service that the Rotarian renders to society.

The principle of Rotary classification is somewhat more specific and precise. In determining the classification of a Rotarian, it is necessary to look at the "principal or recognized business or professional activity of the firm, company, or institution" with which an active member is connected or "that which covers the active member's principal and recognized business or professional activity."

It should be clearly understood that classifications are determined by activities or services to society rather than by the position held by a particular individual.

In other words, if a person is the president of a bank, he or she is not classified as "bank president" but under the classification "banking."

The classification principle also permits businesses and industries to be separated into distinct functions such as manufacturing, distributing, retailing, and servicing.

Classifications may also be specified as distinct and independent divisions of a large corporation or university within the club's territory, such as a school of busiÂ-ness or a school of engineering.

The classification principle is a necessary concept in assuring that each Rotary club represents a cross section of the business and professional service of the community.

0

More Ideas - New Members

- Six-Month Plan...Encourage every new member to bring in another new member within six months. A district in Arkansas, USA, experienced 17 percent growth using this plan.
- Five for One Team...Divide the Club into groups of 5. Assign each group to bring in at least one new member within three (3) months. Make this a contest with proper recognition for the winning group.

When inviting someone to a club meeting or event, Rotarians are often asked,

What is Rotary? What does Rotary do?

Some club members may be unsure about how to respond to these questions. At this point in your program, address this concern by passing out What's Rotary? cards to your club members.

(What's Rotary? [419-EN] is a small, blue, trifold card that provides an effective and concise explanation of what Rotary is, what Rotarians do, and what Rotary's main objectives are.

It can be ordered in bundles of 50 through the RI Catalog or RI Web site.)

Encourage your members to give one of these cards to each person they invite to a meeting.

Handing prospective members the card is a way of sharing Rotary's mission in a simple, low-pressure way

It also allows the prospective member to take the information home and think about it.

Sample:

ROTARY is an organization of business and professional leaders united worldwide, who provide humanitarian service, encourage high ethical standards in all vocations, and help build goodwill and peace in the world.

ROTARY is the world's first service club. The first Rotary club was founded in Chicago, Illinois, USA on 23 February 1905.

ROTARY is some 1.2 million service-minded men and women belonging to more than 28,000 Rotary clubs in virtually every nation in the world

ROTARIANS meet weekly for fellowship and interesting and informative programs dealing with topics of local and global importance.

Membership reflects a wide cross-section of community representation

ROTARIANS plan and carry out a remarkable variety of humanitarian, educational, and cultural ex-change programs that touch people's lives in their local communities and our world community.

ROTARY is The Rotary Foundation, which each year provides some US\$90 million for international scholarships, cultural exchanges, and humanitarian projects large and small that improve the quality of life for millions of people

Page 10 BLOOMSCOOP Vol. 28 Issue 08 29 August 2019

10 tips to attract and retain quality members

By Tom Gump, past president of the Rotary Club of Edina Morningside, Minnesota, USA, and a District 5950 trainer

Since 1 July, 2016, my Rotary club has recruited and brought in new members. The club has gone from being classified as a "medium" sized club of 68 members in our district to being classified as a "large" club of 93 members in just over nine months. How did this happen? Here's our tips:

- Know your club's strengths. If you meet in the morning, you will probably be a good fit for a 9 to 5 employee. But if you meet at noon, you're more likely to appeal to retirees or parents of school-age children. If someone doesn't fit your format, recommend them to another club. They won't forget you and may send you someone another day. Let all the clubs in your area know you are looking for members, and they may send you some that better fit your format than their own.
- Keep a list of potential recruits. It doesn't matter if it's a paper list or if it's kept on the desktop of your computer – it just makes you think about those people and others that may be a fit for your club.
- Make recruiting the top priority in your club. You can't do everything as a club president, and knowing that will give you some freedom to focus on the most important thing. Having new members with new energy will help you have more people to raise money for The Rotary Foundation, serve on your committees, and invite additional members/ more smiling faces to your meetings and fun event. Let your members know this is the top priority so they can all help.
- Create a letter that lists all the great things about your club. List your star members, the advantages of where your club meets, how many members it has, etc. Make sure to tailor the email/letter to the wants of any potential new member
- List potential areas of responsibilities. Potential members will want to know how they can fit in and what opportunities there are for serving.
- Be persistent. There will be times that it takes literally
 a dozen requests to get someone to a meeting.
 Keep asking. They may come to a meeting, or tell you
 they can't join now because they are too busy, or
 they aren't interested in joining at the moment.
 These are all fine answers as long as you keep track
 of them and keep in touch.

- Talk about Rotary wherever you go. At church, temple, work, neighborhood gatherings, family gatherings, parties, etc. You'll be amazed how easy it is after you practice for a while.
 Getting a lot of "no" answers built my confidence because it didn't hurt as bad as I thought and most people were actually happy I asked, even if they responded negatively. It's always a good time to recruit.
- Celebrate when you get a new member. This gets
 the club excited about getting more members.
 Our club makes a poster of the individuals after
 they've been voted in and we put it in the front of
 the room at our next meeting.
 We do the same thing when we induct a new
 member.
- Realize there is no finish-line.
 Even if you are at the size that your club wants to be, there are always reasons people leave. And new insights always benefit a club.
 You're either growing or you're dying.
- Be vibrant. Wear a turkey suit before Thanksgiving (it's only your dignity you stand to lose), wear a lanyard with lots of "flair"/Rotary pins (it gets people talking to you), make outrageous center pieces for your meeting tables (it gets people talking to each other), greet people outside the building you are meeting in and hold the door open for them (it lets people know you care).

3 TIPS ON RETENTION

An Assignment:

- Activity is the genius of Rotary.
- It is the process by which we grow like the muscle of my arm.
- An assignment should be given to everyone, especially new members.

29 August 2019 BLOOMSCOOP Vol. 28 / Issue 08 Page 11

IPP Marilou Baarde malou64@gmail.com

Rotary is always on the forefront of unifying its members across the globe by engaging in exchange of all the differences whether physical, cultural, language, religious, political, ideological and/or psychological.

As an organization, it thrives on the common good which is service.

The bigger challenge lies on the disruptive environment where technology arises. Connectivity was achieved because of technology but at the same time issues on privacy, unlawful use of the internet to solicit violence by different groups, addiction to social media platforms that translate to decrease in physical interaction amongst individuals, people being detached from reality and all sorts of security problems.

Technology became a tool for use in extreme cases. Instead of gaining unity, it became an avenue to malign and oppress minority groups.

Currently, we are hearing violence perpetuated by white supremacist group, increased attack of the anti-Semitist radicals, continuous discrimination on black communities and the LGBTQ+ and a lot more.

These are all incited by the same technology that was created to achieve worldwide connectivity.

The irony is, we are diverse than ever.

As Albert Einstein would put it, "it has become appallingly obvious that our technology has exceeded our humanity".

Not long ago when we used to be thrilled by the existence of other cultures and races which seemed to diminish in this age of technology.

Access to information is all over the internet and we thought that just by reading it we can fully understand the uniqueness of our diversity.

Not realizing that the information we get are not all reliable since some of these are mere contributions from

different individuals whose credentials are unverifiable. Researchers are not even allowed to cite information taken from Wikipedia for the same reason.

Use of Technology, a Bane or Boon?

There are a lot of limitations for which many of us are not even aware it exist.

Judging from our experience in using social media platforms to gain connectivity, gaining awareness of what Rotary Clubs are doing is what we mostly aspire.

But we are also criticized for exploiting the communities because we post more pictures that do not portray a "work-in-action".

Some Rotarians would just have photos taken for compliance of reporting and after that will just take-off and leave the activity.

RI being aware of this has required more action photos taken during community service.

In action, we take form as Rotarians.

Our diverse skills and competence allows us to excel in doing service to the community.

We should always remember that technology is a double edge sword, it can cut both ways!

It was created primarily as a tool and our reliance to the vast information and the exposure we get should have its limitations.

We are not even half-way in the development of more sophisticated technological capabilities.

The introductions of 5G technology will even wider the gap especially that more developed countries will be the first adopters.

We in the developing countries will definitely feel the surge and it will ultimately change the way we live and communicate.

We can benefit more if we take precautions in the use of this tool to be successful in a lot of the work we do for our communities.

Sophisticated monitoring of projects could be one of the privileges and faster communication lines will be made available. But all these come with a price. As they say, "there is nothing perfect" in this world. According to Kowalczyk, "the whole idea is not about the choice between using or not using technology. The challenge is to use it right.
