LORD, we praise and thank you for giving us the gift of life each day. Give us the wisdom and strength to quench the urge to do things our own way, more so in the directions you want us to obey, to become better individuals and Rotarians so we could serve others selflessly.

In each day's challenges with our human frailties, give us courage with the thought that you are always in our midst and in our weakness, you are always our strength.

Let each member be a blessing to others and a pillar to lean on for us to be united and withstand whatever challenges we face daily.

Help us that as we take the rest of the day, we have peace in our hearts for we listened to your word through the others we have touched and served.

AMEN.

EDITOR'S NOTE

October felt like it went too fast.

While September felt like we were going at a camel's pace, October felt like we were going at 120 miles per hour in a race car. We're already on to the last week of the month!

One my favorite holidays of the year is also coming - Halloween! Even for all the scare and gore that Hallow's Eve brings (also knowing for myself that I'm a scaredy cat), I always associated it with happy times. Trick-or-treating around the village I lived in and getting lots of candy, dressing up as my favorite Disney princesses, and walking with my brothers and parents always had a certain charm to it.

Because I missed it so much, I figured I'd try doing it again. Dress up in a costume, go trick-or-treating, and have fun!

What was your favorite memory of Halloween?

Cheers!

PRESIDENT'S UNDERWRITING

Greetings, dearest Ladies in Red!

As we end this month, may I remind everyone that on the 18th of November, 2022, is The Rotary Foundation Recognition Night at the Cebu Country Club Ballroom. May this event knock on our hearts and minds so we could expand our imagination towards future impactful projects that we could implement.

Let it be known to all our members that the District grant fund which will be given back to the club are actually based on our annual TRF collections. The higher the collection, the more funds we can gather for our projects.

Having said this, may we find more meaning to our donations to The Rotary Foundation and may we all become more imaginative Rotarians.

Another great and rare opportunity happening next month is the visit of Rotary International President Jennifer Jones to the Philippines! Are you excited to meet her in person? She'll be in Manila for the DEI Townhall on the 24th of November, 2022, at the Philippine International Convention Center, Pasay, Manila.

In the meantime, let us continue to bond in another fun-filled fellowship at Emilia's Healing resort at Samal Island, while learning from our resource speaker, Dr. Rolando A. Balburias, a General Internal Medicine who will talk about women's health as a way of commemorating Pink October.

Appreciating the generosity of Director Gina Marie Espejo for offering this beach place for the club. Have fun gorgeous ladies of RCWWD!

MODULES 11-14

Scholarship Highlights

Progress in the Coursework

As of this writing, I have already completed the taught modules of the MSc in Water Management and Governance. I am now navigating towards my thesis writing. Here are the four modules that I completed from July - October 2022.

Module 11 - Water Resource Planning under Climate Change & Environment

This is a course I took under the MSc in Water Science and Engineering Programme. This discussed the expected impacts of climate change on water resources. This allowed the students to simulate water supply planning and adaptation and mitigation measures to cope with the ill impacts of climate change using the Water Evaluation and Planning System, especially along the fields of the Water-Energy-Food nexus.

Module 12 - Water Infrastructure Asset Management

This is an elective course taught for five days only but gave a comprehensive discussion on asset management as a crucial management tool in planning water infrastructure investments. The lecture was reinforced with a field trip at the WATERNET in Amsterdam because of its exemplary systemic asset management ranging from drinking water supply provision and pipe maintenance, processing water from the sewer and maintaining the sewer system, groundwater level monitoring, keeping the canal clean, and in operating and maintaining bridges and locks in Amsterdam.

Module 13 - Research Project

This course served as the laboratory for thesis proposal writing. In this module, we developed a research paper based on the data collected during the international fieldwork in Montpellier, France (Module 9). My group have worked on "How does remunicipalisation impact public service: The case of water supply provision in Montpellier, France."

Module 14 - Research Proposal Development

This module ushered the students in thesis proposal writing. We submitted the proposal last October 12. I intend to do this research: **"Sharing Transboundary Water in the Anthropocene: Examining International Water Law in Practice through the Earth System Law Perspective"**. This is subject to further discussion with my supervisor and mentor as to the selection of the case study area. I am set to defend my proposal on October 18, 2022. After which, I will conduct the thesis and complete it until March 2023.

Rotary Engagement

A New Weapon Against Polio

by Jason Keyser

A modified vaccine offers hope that eradication is closer than ever.

In mid-2017, two groups of 15 strangers lived together for 28 days each in a ring of shipping containers assembled in the parking lot of Antwerp University Hospital in Belgium. They had access to books and movies, a small courtyard for barbecues, a common kitchen and dining room, and a fitness room – all of it behind secure interlocking doors and under the watch of personnel in protective gowns.

What sounds like a reality TV or sci-fi scenario was, in fact, a remarkable clinical trial of the latest weapon in the battle to eradicate polio – a reengineered vaccine called the novel oral polio vaccine type 2, or nOPV2. The study aimed to evaluate whether the altered formula, the first major update to polio vaccines in about six decades, could help end outbreaks of circulating vaccine-derived poliovirus, also known as variant poliovirus. Such cases arise in rare instances when the live but weakened virus contained in oral polio vaccines circulates in areas of low vaccine coverage and mutates back into a dangerous form that can infect people who have not been fully vaccinated.

These variant poliovirus outbreaks have emerged over the past two decades as a significant stumbling block in the effort by

Rotary and its partners in the Global Polio Eradication Initiative (GPEI) to wipe out the disease. The outbreaks are different from those driven by wild poliovirus, which circulated naturally in the environment for millennia and remains endemic in just two countries, Afghanistan and Pakistan. But the outcome is the same – the virus in either kind of outbreak can, in rare instances, cause paralysis.

In 2011, staff at the Bill & Melinda Gates Foundation, one of the GPEI partners, wondered if the live virus in the traditional oral vaccine could be tweaked to limit its ability to mutate. "The first challenge was purely scientific," says Ananda Bandyopadhyay, a deputy director of the polio team at the Gates Foundation, which funded and led the effort. "How do you make the vaccine more genetically stable without compromising its immunogenicity [ability to provoke an immune response]? That was really, really challenging."

THE FOUR- WAY TEST

OF THE THINGS WE THINK, SAY, AND DO

4. Will it be **BENEFICIAL** to all concerned?

THE OBJECT OF ROTARY

The object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise, and, in particular, to encourage and foster:

FIRST, the development of acquaintance as an opportunity for service;

THIRD, the application of the ideal of service in each Rotarian's personal and community life;

FOURTH, the advancement of international understanding, good will, and peace through a world fellowship of business and professional persons united in the ideal of service.

ROTARIAN CODE OF CONDUCT

As a Rotarian, I will:

1. Act with integrity and high ethical standards in my personal and professional life;
2. Deal fairly with others and treat them and their occupations with respect;
3. Use my professional skills through Rotary to mentor young people, help those with special needs, and improve people's quality of life in my community and in the world;
4. Avoid behavior that reflects adversely on Rotary or other Rotarians.

ROTARY'S SEVEN AREAS OF FOCUS

For more than 100 years, Rotarians have joined together from all continents, cultures, and industries to take action in our communities and around the world. With a commitment to achieving lasting change, we work together to empower youth, enhance health, promote peace, and most importantly, advance the community.

While Rotarians can serve in countless ways, Rotary has focused its efforts in seven areas, which reflect some of the most critical and widespread humanitarian needs:

1. Peace and conflict prevention/resolution
2. Disease prevention and treatment
3. Water and sanitation
4. Maternal and child health
5. Basic education and literacy
6. Economic and community development
7. Supporting the environment
