More than 775 million people over the age of 15 are illiterate. That's 17 percent of the world's adult population.

Our goal is to strengthen the capacity of communities to support basic education and literacy, reduce gender disparity in education, and increase adult literacy. We support education for all children and literacy for children and adults.

HAPPY 115TH CHARTER ANNIVERSARY

Clean water, sanitation, and hygiene education are basic necessities for a healthy environment and a productive life.

When people have access to clean water and sanitation, waterborne diseases decrease, children stay healthier and attend school more regularly, and mothers can spend less time carrying water and more time helping their families.

Breast cancer remains one of the top causes of death among Filipinas. In fact, according to the Philippine Council for Health Research and Development, one in 13 Filipinas will develop breast cancer in her lifetime. In addition to this, the Philippine Obstetrical and Gynecological Society reports that the Philippines has the highest prevalence of breast cancer among 197 countries.
