MARK DANIEL MALONEY
ROTARY INTERNATIONAL PRESIDENT
2019-2020

AUGUST 2019 MESSAGE

During 2019-2020, I am encouraging Rotarians and Rotatractors to grow Rotary. We must grow our service, we must grow the impact of our projects, but, most importantly, we must grow our membership so that we can service more.

Let us try a new approach to membership, one that is more organized and strategic. I am asking every club to form an active membership committee consisting of people of different backgrounds who will look multiculturally at the leadership of the community.

Your club's membership committee will then apply Rotary's classification system — designed to ensure that the range of professions in your community is well represented — to identify potential leaders with the skill, the talent, and the character that will strengthen your club. If your club's membership committee is unsure how to proceed, look to the club membership committee checklist on Rotary.org for clearly defined steps to organizing its work.

How else will we connect to grow Rotary? We will also form new types of clubs — other independent clubs or satellite clubs — with different meeting frequencies and engaging service opportunities, not just where there is no Rotary, but also where Rotary is already thriving. No Rotary club in the world can possibly serve all segments of its community. Therefore, we must organize new clubs to engage the community leaders who cannot connect with our existing clubs.

Creating Rotary is all about taking the connections that make our organization unique in the world and transferring and multiplying them. Let us commit ourselves to creating Rotary and to welcoming the next diverse generation of women and men as Rotary connects the world.

29 Genesis of Rotary Membership

What are the most successful components of the Rotary membership development program? How do you build a strong membership base?

1. **Identity** – It is an ongoing, complex work. Rotary members are of the most kind, backgrounds, oriented to the Rotary 4 Principles, but are of numerous ethnic backgrounds.
2. **Rotary Development** – The basic orientation to Rotary is to be a member of a service organization. Programs should be simple, clearly defined, and a clear system of entry to ensure that every member can be a part of the Rotary family, not just a few.
3. **Personal Growth & Development** – My Rotary is Myself is the key to a member's growth and development.
4. **Leadership Development** – Rotary is an organization of leaders. A successful Rotary program is one that develops leadership in every member, not just a few.
5. **Membership in the Community** – Membership in Rotary is not just a matter of being a member, it is a matter of being a leader in the community.
6. **Community Development** – Each week in Rotary, there is a program designed to help the community. This is the primary reason for the Rotary's success. The program is designed to help the community, not just the members.
7. **Participation in the Community** – Each member is a leader in the community. The program is designed to help the community, not just the members.
8. **Public Speaking Skills** – Many members are called upon to speak in public. Rotary develops members in this area, and this is a key to the Rotary's success.
9. **Membership in the World** – Rotary is a global organization. The program is designed to help the community, not just the members.

11. The identity of an "Older Generation" – Rotary has a great tradition, as one of the oldest and most successful organizations in the world. It is a great tradition that has been passed on to the younger generation.

20. The Rotary family is a global organization. It is a global organization that has been passed on to the younger generation.
